"BUY OR BID"

SPECIAL CLEARANCE SALE OF LATIN AMERICAN COINS

In the normal course of acquiring coins for our auctions and private collector wantlists, we end up with numerous additional items which we would not have selected on their individual merits. These items are the type that often form the bulk of a dealer's inventory. However, we prefer not to have copious quantities of such items. Thus we find it necessary to sell them at "wholesale" levels in order to avoid the rigors of retail placement. This sale is designed to serve that function.

This is a fixed-pricelist from date of issuance through March 24. All items are available for immediate purchase on the usual first-come first-served basis at the price listed in the first column ("wholesale").

All items remaining unsold on March 25 will become auction lots. The "reserve" price indicated in the second column is the lowest bid we would accept for each item.

Thus you can immediately purchase any pieces at the "wholesale" price through March 24 or bid for them at a lower price in the March 25 auction!

Auction bids must be in whole-dollar units and should be less than the "wholesale" figure but equal to or greater than the "reserve" price. Obviously, bidders would be wise to bid somewhat above the "reserve" in order to win lots from those who routinely bid exactly the lowest possible amount (i.e. the reserve).

In defense of these coins and the many collectors who will appreciate them on their merits, we acknowledge that they are not junk or "second-quality" items for the most part. There are many superior and scarce pieces listed herein but they are generally not of "auction quality". Since we are now focusing most of our energy toward our semi-annual auctions, these coins are available at less than typical retail.

A final comment for auction bidders: of the 844 lots in our similar March 1984 sale, 37% sold at the column 1 price and 52% in the auction. It is worth your time to prepare a lot of bids!

Bargains will be plentiful. The auction "reserve" price is below our cost half or more of the time. We are anxious to reduce our inventory; this is not designed as a money-making project. Take advantage of this opportunity.

Alternates are solicited, and will be used as such, in both the fixed-pricelists and auction phases. You can also place a "*spending cap*" (any limit you state) in both segments.

Credit is available for six months with a 25% downpayment. Inquire if interested.

We look forward to your orders and your bids. Both can be sent simultaneously by using the bid sheet at the back of this catalogue.

Regarding *phone calls,* please note that our business phones are not always attended. Calls from 9 A.M. until noon and from 5 P.M.-6 P.M. are usually answered immediately unless our office is closed due to travel (frequently this is the situation). Keep trying or, preferably, send a letter for .22¢!

We also include our normal terms-of-sale which are seldom published. These have been in effect for a decade or more and should remain valid for the foreseeable future.

TERMS OF SALE: Coins are available on approval to established clients with a good payment record. New customers are asked to pay on invoice or to supply adequate financial references with their order. All coins are guaranteed genuine and as described. We offer a two-week unconditional return period. All payments are due within ten (10) days unless other arrangements have previously been made.

POSTAGE AND INSURANCE: We will pay postage and insurance on all domestic U.S. orders received with payment or by telephone. Others will be billed for postage and insurance. Overseas buyers will be billed for postage and a $3.60 registration fee, plus 2% for insurance *except:* 1) On telephone or telegraph orders *we* will pay the postage and registration but not the 2% insurance, and 2) Overseas buyers are welcome to save the 2% insurance fee by insuring the parcel *themselves* and notifying us in advance.

CONFIRMATION of the availability of items is not possible except with 48 hour notice. All items are held in bank vaults.

May 7 auction of rare Latin American coinage: Our semi-annual sale is nearly finished. About $200,000 in value is included. The gold, crown and minor coin sections all have several exciting pieces included. Your catalog should arrive by April 18; watch for it!

For the first time in our nearly 100 lists, we have carefully indicated the current Krause-Mishler (KM) number for virtually all items. It is apparent that 90%+ of all current collectors use that reference as their primary informational source. Whether this trend will continue with the current $100 retail price for the two volume set is unclear....

In our opinion it is unfortunate that the book is often used to the exclusion of other references. We particularly refer to the Yeoman 1850-1950 type catalogue. Whereas KM presents virtually every series in a computerized manner that is confusing and makes the series overly complex, Yeoman presents a basic collecting guideline for assembling a collection of the "significant" major types. In the era when Yeoman was the standard reference, it seemed that there were always more new collectors than persons leaving the hobby. The opposite seems true over the past five years; perhaps the revolution toward KM is a deterent to starting new collections.

In order to expose any interested party to the joys of a "simple type set", we offer a free (on request) copy of Yeoman's 13th edition with any collector order over $50. I feel that we need to get "back to the basics" that made our hobby enjoyable and relaxing!
